DETAILED ACTION

Claims 1, 2, 4-5, 12-19, 44-45, and 51-55 are pending in the instant application. Claims 3, 6-11, 10-43, and 46-50 are canceled.

Response

Applicant's Rule 132 declaration, remarks and amendment to the claims filed on 3/12/08 are acknowledged. The rejections made in the previous office action are withdrawn in view of the amendment to the claims, declaration and response.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement as set forth in the Office action mailed on 7/25/2006 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Patrick Skacel on 05/06/08.

The application has been amended as follows:

Delete claims 2, 12-19, 45, 51-53 and 55.

In claim 1, page 2 of 13, line 2, **insert** ---and a pharmaceutically acceptable adjuvant, carrier or excipient--- after the word (s-equal).

In claim 4, page 2 of 13, line 1, **insert** ---pharmaceutical--- before the word composition.

In claim 4, page 2 of 13, line 1, **delete** "isolated" before the word s-equal.

In claim 5, page 2 of 13, line 1, **insert** ---pharmaceutical--- before the word composition.

In claim 44, page 4 of 13, line 1, **insert** ---pharmaceutical--- before the word composition.

In claim 44, page 4 of 13, line 1, **insert** ---further--- after the word is.

In claim 54, page 5 of 13, line 2, **insert** ---and a pharmaceutically acceptable adjuvant, carrier or excipient--- after the word agent.

Reasons for Allowance

The present invention is directed to pharmaceutical compositions comprising the S enantiomer of equal. The closest prior art of record is U.S. Pat. No. 6,455,032 (Kelly et al.), which teaches equal, but does not teach or provide the requisite motivation to make the instantly claimed pharmaceutical compositions wherein the composition consists mainly of S-equal for pharmaceutical use. The instant specification teaches the method of making the instantly claimed S-equal (see page 15) and teaches that these compounds have unexpected pharmaceutical utility (see pages 1-8), wherein the S-equal compositions differ from other

isoflavones in that they may actually inhibit the development of breast and prostate cancer (see bioavailability data on pages 37-42).

Telephone Inquiry

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susannah Chung whose telephone number is (571) 272-6098. The examiner can normally be reached on M-F, 8am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph McKane can be reached on (571) 272-0699. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
